Q33. How do you handle rush projects?

Notes:

✓ **IP Reference:** Rush capabilities with advance coordination.

Q34. What if demand drops below forecast?

Notes:

✓ **IP Reference:** We work with you. Partnership = flexibility.

Q35. How do you approach service innovation?

Notes:

✓ **IP Reference:** Biweekly innovation meetings per customer.

Q36. What's your business continuity plan?

Notes:

✓ **IP Reference:** Partner backup, insurance, communication protocols.

■ Red Flags to Watch For

Be cautious if a vendor shows any of these warning signs:

- Vague answers about trace timing (retailers require 4-hour traces)
- Can't name a direct compliance contact
- No real-time order visibility
- Only communicates reactively (you chase for updates)
- Won't share service metrics (transparency is table stakes)

Need Help Evaluating?

Industrial Packaging has helped CPG brands with contract packaging for 72 years.
Our answers above are real — we're happy to prove them on a call or plant tour.
