# AP2000

## INFLATABLE AIR PILLOW SYSTEM

### BIG THINGS DO COME IN SMALL PACKAGES.

The AP2000 is a tabletop air pillow system that has a small footprint, perfect for limited spaces or low demand packaging areas. Small but powerful, this machine produces air pillows at a speed of 25 feet per minute. Plus, there is no messy clean up afterwards, as is often found when smaller packaging areas are forced to use alternative cushioning methods.
